

# FX PROJECTS

Cloud Based Billing System Platform

EQUIPMENT 

# Challenge

Build a cloud based billing system for piece of unique OEM equipment, service locations and training curriculum in a platform environment

# Action

Successfully delivered the platform, training curriculum, service partner network and locations, product education per requirements.  
Product never worked.

# Result

The product never worked, so the project wasn't successful. The product's performance was not our responsibility; we built the platform and network.
